

BRAND GUIDELINES

Visual Identity System • Version 1.0 • 2025

— BRAND MARK

Logo Usage

The LK Nail Salon logo must always appear with adequate clear space and on approved backgrounds only.

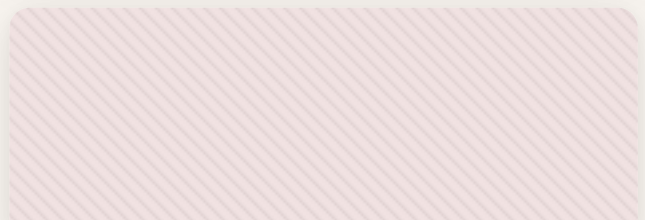

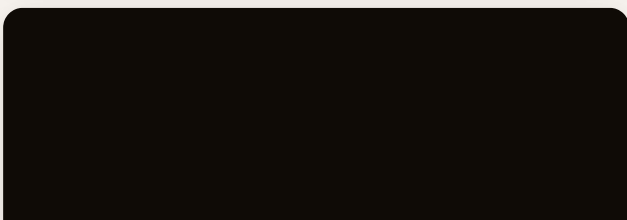

Primary — Dark Background

Use on dark/black backgrounds. This is the preferred treatment.

On Gold Gradient

Acceptable for special promotions and seasonal campaigns.

Light Background — Dark Version

Use a dark/black version of the logo on light backgrounds.

Never — Patterned or Busy Background

Do not place the logo on complex textures or competing imagery.

— CLEAR SPACE RULE

Always maintain a minimum clear space equal to the height of the crown symbol on all four sides of the logo. Never crowd the logo with other elements.

— USAGE RULES

Do & Don't

✓ DO

- Use Cardo for all headings and display text
- Pair Cardo headings with Lato body copy
- Use the signature gold gradient for primary CTAs
- Place the logo on dark (#1B1D1C) or gold gradient backgrounds
- Apply tight letter-spacing (-0.03em) to large headings
- Layer shadows with brand-tinted colors, not flat grey
- Use kicker labels (uppercase Lato) before every section heading
- Only animate `transform` and `opacity`
- Provide hover, focus-visible, and active states on all interactive elements

✗ DON'T

- Use blue, purple, teal, green, or generic default palette colors
- Use the same font for both headings and body text
- Use `transition-all` — always specify exact properties
- Place the logo on busy, patterned, or low-contrast backgrounds
- Stretch, rotate, recolor, or crop the logo mark
- Use flat single-color shadows (shadow-md without color tint)
- Use inconsistent spacing — always reference the spacing tokens
- Mix multiple script or display fonts — Dream Avenue is logo-only

— MOTION SYSTEM

Animation & Motion

— EASE OUT (REVEALS)

For entrances, scroll reveals, page transitions.

`cubic-bezier(0.16, 1, 0.3, 1)`

— EASE BACK (INTERACTIVE)

For hover scale, bounce, micro-interactions.

`cubic-bezier(0.34, 1.56, 0.64, 1)`

— DURATION TOKENS

Micro: 150ms · Standard: 250ms · Reveal:
600ms · Stagger: +70ms per child

— PROPERTIES TO ANIMATE

Only **transform** and **opacity**. Never layout
properties. Never **transition-all**.
